Who are we?

01

Chartered 23 years ago on May 13, 2003, the ACM-W organization at Ohio State is the **oldest continuously active** chapter in the nation. ACM-W is also the **largest** organization for women in computing on campus.

Our mission is to engage and strengthen diversity in the tech field through our various opportunities including conferences, workshops, networking opportunities, and much more!

Membership is **open for all students** who are interested in furthering the missions of ACM-W, irrespective of gender or degree level.

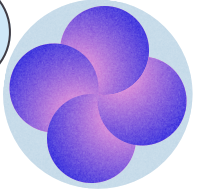

Awards

Company spotlight	Company feature and highlights about workplace culture on ACM-W's Instagram	\$200

Overall Benefits:

Access to Member Resume Book

Priority Event Registration

Brand Recognition across Campus

Networking access to 50+ Members with a proven ROI

Workshop and Recruiting Opportunities

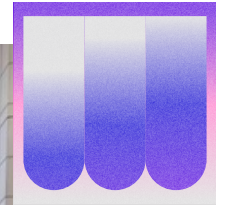

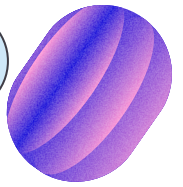

Support Female-Supporting Students in Tech

Grace Hopper Celebration

flagship event #1

05

The Grace Hopper Celebration (GHC) of Women in Computing is an exceptional opportunity for students to secure their first internship, engage with their favorite companies, meet role models, and experience insightful talks or workshops in an international technical conference setting. It is the largest, and a **highly prestigious** conference, where **major Fortune 100** and tech companies actively source talent.

OSU's ACM-W chapter covered almost all GHC 2025 costs for **18 students** for a total of almost **\$1500** per student. Our attendees have received **133 interviews** and **41 offers** over the past five years for internships or full-time offers from GHC attendance.

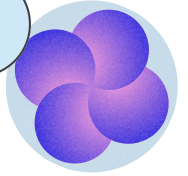

View testimonies from our attendees [here](#).

A video showcasing ACM-W at GHC 2025 can be found [here](#).

OCWiC

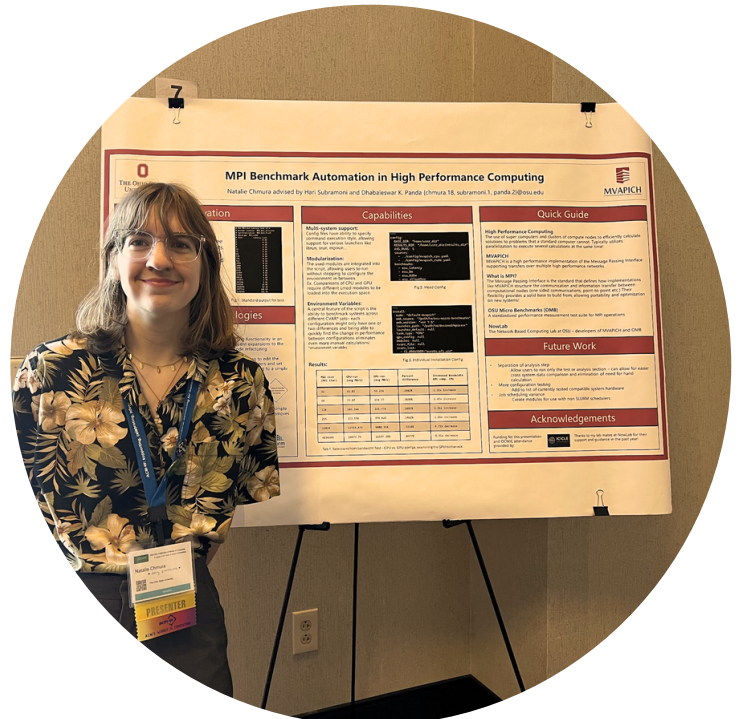

flagship event #2

06

Inspired and **modeled after GHC**, the Ohio Celebration of Women in Computing is a **biennial conference** for empowering and supporting women in computing fields across Ohio. This also serves as the **flagship event for Ohio's ACM-W Professional Chapter**. ACM-W members will be attending OCWiC 2027.

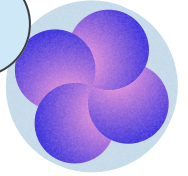

16 students from Ohio State ACM-W chapter attended OCWiC on a full scholarship, meeting professionals from **over 40 universities** and tech companies across the state and engaging in professional talks, poster sessions, workshops, and student presentations. ACM-W students **presented research posters** and **led the session** on "Future of Leadership in Women in Tech Companies."

Eating With Industry

flagship event #3

07

This exclusive event was conducted in a group-based speednetworking format with **65 student attendees**, some of the best students at Ohio State, and **11 company representatives**.

Four companies, including **Captech**, **Caterpillar**, **Accenture**, and **JP Morgan & Chase**, participated to recruit women or women-supporting students in tech. After the event, all companies were emailed the resumes of all student attendees.

GBMs

general body meetings

When: every Wednesday @ 7:00 p.m.

08

Socials

Community-building events throughout the semester, including Ice Cream Socials, Holiday Celebrations, Vision Board Nights, Palentine's Day gatherings, and End-of-Year Celebrations.

Networking & workshops

- Technical Interview Prep with Google, Career Fair Prep workshops with JPMorgan Chase and Caterpillar,
- MATLAB Simulink workshop, shadowing programs,
- Fireside chats with technology leaders such as Máirín Duffy, Red Hat
- Recruiting workshops with CapTech
- Smart Scheduling & Professor Recommendations workshop,
- Alumni panels,

Mentorship

Structure: In ACM-W's Mentorship Program, members seeking guidance and community (Littles) are paired with upperclassmen mentors (Bigs) based on major, interests, and career goals. Mentors and mentees build meaningful connections through various events such as:

- Charcuterie Nights
- Bracelet Making
- Craft Nights
- Painting Socials
- Bob Ross Mini Painting
- Boba and Playa Bowls Study Groups
- Soup & Study sessions

Outreach

service to the community (STEM outreach) uniquely sets us apart from standard computing organizations.

i-Code!

hosted by ACM-W at OSU

Impact

Our corporate partners aren't just sponsoring a student club, they are supporting a talented group of technical mentors. During the past academic year, ACM-W members engineered and executed over **210+ hours** of volunteer technical outreach, directly training and impacting **150+ K-12 students** in the Columbus area.

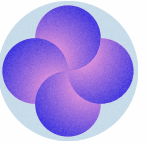

Events

Sponsoring our **flagship outreach** events, **Buck-i-Code** and **STEM Day**, our day long hackathons for K-12 students, puts your brand at the **center of a massive development day** where our members teach local students to build websites in HTML/CSS and program in Python.

Beyond this signature event, your sponsorship expands our year-round technical workshops hosted in partnership **Columbus Metropolitan Libraries, 4-H networks, and Girl Scouts**, providing a **platform** for **your own engineers to volunteer**, showcase your workplace culture, and **mentor** the **next generation** of tech talent.

Why partner?

Proven Interview-Ready Merit: Our chapter doesn't just build community; **we train developers.** With an established track record of members translating technical workshops into direct job offers at industry-leading tech firms, partnering with ACM-W delivers **measurable hiring conversion rates.**

Bypass the Career Fair Noise: Gain direct, uncluttered access to a **highly concentrated pool** of computing majors (CSE, CIS, Data Analytics) at Ohio State. Skip the generic lines and filter straight to **elite technical talent.**

Early-Access Talent: Secure an **exclusive, front-row seat** to talented candidates.

Through our targeted **delegations to prestigious technical conferences** like GHC and OCWIC, your team can network with and extend offers to top candidates weeks before national recruiting seasons peak.
